

WEB ACCESSIBILITY, CONTENT, APPS AND SERVICES

A. Creation of Content for Web Pages/Sites, Apps and Services

The Board of Directors authorizes staff members and students to create content, apps and services (see Bylaw 0100 Definitions) that will be hosted by the Board on its servers or Academy-affiliated servers and/or published on the Internet.

The content, apps and services must comply with applicable State and Federal laws (e.g., copyright laws, Children's Internet Protection Act (CIPA), Section 504 of the Rehabilitation Act of 1973 (Section 504), Americans with Disabilities Act (ADA), Student Online Personal Protection Act (SOPPA) and Children's Online Privacy Protection Act (COPPA)), and reflect the professional image/brand of the Academy, its employees, and students. Content, apps and services must be consistent with the Board's Mission Statement and staff-created web content, services and apps are subject to prior review and approval of the Educational Service Provider before being published on the Internet and/or used with students.

B. Purpose of Content of Academy Web Pages/Sites, Apps and Services

The purpose of content, apps and services hosted by the Board on its servers or Academy-affiliated servers is to educate, inform, and communicate. The following criteria shall be used to guide the development of such content, apps and services:

1. Educate

Content should be suitable for and usable by students and teachers to support the curriculum and the Board's Objectives as listed in the Board's Strategic Plan.

2. Inform

Content may inform the community about the school, teachers, students, or departments, including information about curriculum, events, class projects, student activities, and departmental policies.

3. Communicate

Content may communicate information about the plans, policies and operations of the Academy to members of the public and other persons who may be affected by Academy matters.

The information contained on the Board's website(s) should reflect and support the Board's Mission Statement, Educational Philosophy, and the School Improvement Process.

When the content includes a photograph or personally identifiable information relating to a student, the Board will abide by the provisions of Policy 8330 - Student Records.

Under no circumstances is Academy-created content, apps and services, to be used for commercial purposes, advertising, political lobbying or to provide financial gains for any individual. Included in this prohibition is the fact no web content contained on the Academy's website may:

1. include statements or other items that support or oppose a candidate for public office, the investigation, prosecution or recall of a public official, or passage of a tax levy or bond issue;
2. link to a website of another organization if the other website includes such a message; or
3. communicate information that supports or opposes any labor organization or any action by, on behalf of, or against any labor organization.
4. Under no circumstances is staff member-created content, apps and services, including personal web pages/sites, to be used to post student progress reports, grades, class assignments, or any other similar class-related material. Employees are required to use the Board-specified website, app or service (e.g., Progressbook) for the purpose of conveying information to students and/or parents.
5. Staff members are prohibited from requiring students to go to the staff member's personal web pages/sites (including, but not limited to, their Facebook, Instagram, Pinterest pages) to check grades, obtain class assignments and/or class-related materials, and/or to turn in assignments.
6. If a staff member creates content, apps and services, related to his/her class, it must be hosted on the Board's server or an Academy-affiliated server.
7. Unless the content, apps and services contains student personally-identifiable information, Board websites, apps and web services that are created by students and/or staff members that are posted on the Internet should not be password protected or otherwise contain restricted access features, whereby only employees, student(s), or other limited groups of people can access the site. Community members, parents, employees, staff, students, and other website users will generally be given full access to the Board's website(s), apps and web services.

Web content, apps and web services should reflect an understanding that both internal and external audiences will be viewing the information.

School web pages/sites, apps and web services must be located on Board-owned or Academy-affiliated servers.

The Educational Service Provider shall prepare administrative guidelines defining the rules and standards applicable to the use of the Board's website and the creation of web content, apps and web services by staff and students.

The Board retains all proprietary rights related to the design of web content, apps and web services that are hosted on Board-owned or Academy-affiliated servers, absent written agreement to the contrary.

Students who want their class work to be displayed on the Board's website must have written parent permission and expressly license its display without cost to the Board.

Prior written parent permission is necessary for a student to be identified by name on the Board's website.

C. Website Accessibility

The Academy is committed to providing persons with disabilities an opportunity equal to that of persons without disabilities to participate in the Academy's programs, benefits, and services, including those delivered through electronic and information technology, except where doing so would impose an undue burden or create a fundamental alteration. The Academy is further committed to ensuring persons with disabilities are able to acquire the same information, engage in the same interactions, and enjoy the same benefits and services within the same timeframe as persons without a disability, with substantially equivalent ease of use; that they are not excluded from participation in, denied the benefits of, or otherwise subjected to discrimination in any Academy programs, services, and activities delivered online, as required by Section 504 and Title II of the ADA and their implementing regulations; and that they receive effective communication of the Academy's programs, services, and activities delivered online.

The Academy adopts this policy to fulfill this commitment and affirm its intention to comply with the requirements of Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. Section 794, 34 C.F.R. Part 104, and Title II of the Americans With Disabilities Act of 1990, 42 U.S.C. Section 12131 and 28 C.F.R. Part 35 in all respects.

1. Technical Standards

The Academy will adhere to the technical standards of compliance identified at [INSERT link to Academy website]. The Academy measures the accessibility of online content and functionality according to the World Wide Web Consortium's Web Content Accessibility Guidelines ([WCAG](#)) [2.0](#) Level AA, and the Web Accessibility Initiative - Accessible Rich Internet Applications Suite ([WAI-ARIA 1.1](#)) for web content.

2. Web Accessibility Coordinator

The Board designates its Educational Service Provider as the Academy's Web Accessibility Coordinator(s). That individual(s) is responsible for coordinating and implementing this policy.

The Academy's Web Accessibility Coordinator(s) can be reached at:

Michael Springs
Principal
4121 Martin Luther King Avenue
Flint, MI 48505

3. Third Party Content

Links included on the Board's website(s) or web services and apps that pertain to its programs, benefits and/or services must also meet the above criteria and comply with State and Federal law (e.g. copyright laws, CIPA, Section 504, ADA, SOPPA and COPPA). While the Academy strives to provide access through its website to online content provided or developed by third parties (including vendors, video-sharing websites, and other sources of online content) that is in an accessible format, that is not always feasible. The Academy's administrators and staff, however, are aware of this requirement with respect to the selection of online content provided to students. The Academy's Web Accessibility Coordinator or his/her designees will vet online content available on its website that is related to the Academy's programs, benefits and/or services for compliance with this criteria for all new content placed on the Academy's website after adoption of this policy.

Nothing in the preceding paragraph, however, shall prevent the Academy from including links on the Board's website(s) to:

- a. recognized news/media outlets (e.g., local newspapers' websites, local television stations' websites), or
- b. websites, services and/or apps that are developed and hosted by outside vendors or organizations that are not part of the Academy's program, benefits, or services.

The Board recognizes that such third party websites may not contain age-appropriate advertisements that are consistent with the requirements of Policy 9700.01, AG 9700B, and State and Federal law.

4. Regular Audits

The Academy, under the direction of the Web Accessibility Coordinator(s) or his/her/their designees, will, at regular intervals, audit the Academy's online content and measure this content against the technical standards adopted above.

If problems are identified through the audit, such problems will be documented, evaluated, and, if necessary, remediated within a reasonable period of time.

5. Reporting Concerns or Possible Violations

If any student, prospective student, employee, guest, or visitor believes that the Academy has violated the technical standards in its online content, s/he may contact the Web Accessibility Coordinator with any accessibility concerns. S/he may also file a formal complaint utilizing the procedures set out in Board Policies 2260 and 2260.01 relating to Section 504 and Title II.

D. Instructional Use of Apps and Web Services

The Board authorizes the use of apps and web services to supplement and enhance learning opportunities for students either in the classroom or for extended learning outside the classroom.

The Board requires the Educational Service Provider pre-approve each app and/or web service that a teacher intends to use to supplement and enhance student learning. To be approved, the app and/or web service must have a FERPA-compliant privacy policy, as well as comply with all requirements of the Children's Online Privacy Protection Act (COPPA), Student Online Personal Protection Act (SOPPA) and the Children's Internet Protection Act (CIPA).

E. Training

The Academy will provide training for its employees who are responsible for creating or distributing information with online content so that these employees are aware of this Policy and understand their roles and responsibilities with respect to web design, documents and multimedia content.

F. One-Way Communication Using Academy Web Content, Apps and Services

The Academy is authorized to use web pages/sites, apps and services to promote school activities and inform stakeholders and the general public about Academy news and operations.

Such communications constitute public records that will be archived.

When the Board or Educational Service Provider designates communications distributed via Academy web pages/sites, apps and web services to be one-way communication, public comments are not solicited or desired, and the web site, app or web service is to be considered a nonpublic forum.

If the Academy uses an apps and web service that does not allow the Academy to block or deactivate public comments (e.g., Facebook, which does not allow comments to be turned-off, or Twitter, which does not permit users to disable private messages or mentions/replies), the Academy's use of that apps and web service will be subject to Policy 7544 – Use of Social Media, unless the Academy is able to automatically withhold all public comments.

If unsolicited public comments can be automatically withheld, the Academy will retain the comments in accordance with its adopted record retention schedule (see AG 8310A – Public Records, and AG 8310E – Record Retention and Disposal), but it will not review or consider those comments.

Adopted 3/12/19
